

EDUCATION

Johnson C. Smith University

Major: Computer Science and Minor in Cybersecurity

Honors/Awards: Dean's List Awards

Degree Conferral: Pending (Coursework Completed July 2026)

Charlotte, NC

May 2026

SKILLS & CERTIFICATIONS

- **Programming Languages:** Python, Java, Swift, HTML/CSS, SQL
- **Cybersecurity:** Network Administration, Risk Management, Cloud Computing, Vulnerability Analysis
- **Software & Tools:** Wireshark, Git, Github, VS Code
- **Soft Skills:** Creative Problem-Solving, Leadership, Public Speaking
- **Certifications:** Google: Foundations of Cybersecurity, Python 101: Develop Your First Python Program, Cisco Networking Academy –Introduction to Networks

INTERNSHIP EXPERIENCE

Generational Tech

Intern

Atlanta, GA

May 2024 – August 2024

- Executed hands-on programming and cybersecurity exercises, leveraging Python scripts and networking protocols to identify and resolve complex IT challenges, improving system efficiency and reducing downtime.
- Assisted in configuring and troubleshooting secure internal networks, including firewalls, routers, and switches, ensuring reliable connectivity and compliance with cybersecurity standards.
- Collaborated on the development of secure software tools, automating routine tasks and enhancing operational efficiency while minimizing potential security risks.
- Conducted in-depth research and documentation of system vulnerabilities, providing actionable recommendations that strengthened IT infrastructure and mitigated potential threats.

PERSONAL PROJECTS

- **Smart Threads Prototype:** Developed a python-based AI prototype with an API integrated to make fashion sustainable by using data to reduce textile waste and environmental pollution
- **Fashion Show App:** Developed an iOS app using Swift, integrating features such as outfit randomization, a start screen, and gender-specific mode switching.
- **Network Security Research:** Conducted analysis on cybersecurity threats, focusing on ransomware and cloud vulnerabilities.
- **Hackathon Participate:** Built and presented a technical solution in a team-based, time-constrained environment,

RELEVANT EXPERIENCE

FedEx Freight

Operations Associate

Charlotte, NC

March 2025 - Current

- Operated handheld IT systems and scanning devices to ensure accurate package tracking and secure data management.
- Collaborated with team members to optimize workflow efficiency through technology-driven solutions.
- Gained exposure to logistics security protocols, emphasizing accuracy and protection of sensitive data

Amazon

Fulfillment Operations Specialists

Charlotte, NC

May 2023 – January 2025

- Leveraged IT systems and handheld devices, along with custom software applications, to accurately track and manage over 500 packages daily, ensuring timely delivery and reducing tracking errors by 15-20%.
- Maintained precise sorting, scanning, and inventory updates in a fast-paced operational environment, consistently achieving 99% accuracy while meeting strict daily throughput targets.
- Collaborated with team members to optimize workflows, implementing technology-driven, improvements that increased operational efficiency by 10% and minimizing downtime in high-volume shifts

ORGANIZATIONS

- Kappa Alpha Psi Fraternity Inc. (Served the position of Guide Right Chairman)
